

Kia ora koutou,

The Whanake teachers are looking forward to catching up and seeing everyone tomorrow for our first Meet. We would love for your child to bring a favourite toy to share with the team.

Each Whanake team will be meeting at 11.30 am using Google Meet. Here is a link to each team's chat:

Whanake Peach: meet.google.com/hix-hrua-tzs

Whanake Clark: meet.google.com/hkn-uyjr-esa

Whanake de Vries: meet.google.com/nyn-zzsa-pvo

As this will be a new experience for some students, it will require adult supervision and support so that each child can enjoy the value of this time with each other. This live chat is an optional activity that your child may like to take part in. We also have some expectations that we've included below to ensure our Meet runs smoothly.

Google Meet can be used through a variety of devices. If you are using an iPad or iPhone, you will need to download the Google Meet app through the App Store. You can also download the app through the Webstore if you are using an Android device. If you are using a web browser, please make sure your browser is up to date.

If you have any questions, please feel free to email. However teachers will not be able to respond once the chat has started.

If Learning@Home extends beyond tomorrow, we will also have a Google Meet at 11.30 am on Thursday. We will share the link with you the day before.

Kind regards,

The Whanake teachers
